### Food Plot Seed Shipping

For quality reasons and in lieu of the size and weight of food plot seed products, these products are usually shipped directly from respective manufacture. While Outdoorsman Supply Company and these companies place great emphasis on speedy delivery, a shipping delay of up to one week may occur. These delays are not typical but in response to times of peak demand. Large orders may require freight shipping and as a result may take longer to deliver. Please keep in mind that tracking numbers are not immediately available, but can be obtained for items lost or missing in shipment.
